

**UNIVERSITY OF CALICUT**

**Abstract**

Master of Physical Education (MPE)-affiliated colleges-Scheme and Syllabus for 2013-2015 batch-approved-implemented- orders issued.

---

**G & A - IV - J**

U.O.No. 2739/2015/Admn

Dated, Calicut University.P.O, 20.03.2015

---

- Read:-*(1) Item no. 1 of the minutes of the meeting of the Board of Studies in Physical Education PG held on 01.09.2014.  
(2)Item no.3 of the minutes of the meeting of the Faculty of Education held on 06.01.2015.  
(3)Item No.II J of the minutes of LXXII meeting of the Academic Council held on 15.01.2015.  
(4)Orders of V.C in the file of even No.

**ORDER**

The Board of Studies in Physical Education PG held on 01.09.2014 resolved to approve the syllabus and Regulations for Master of Physical Education (MPE) course of Christ College, Irinjalakkuda for 2013-2015 batch vide paper read as (1) above.

The Faculty of Education held on 06.01.2015 has approved the minutes of the Board of Studies in Physical Education PG held on 01.09.2014 vide paper read as (2) above.

The Academic Council held on 15.01.2015 has also approved the same, vide paper read as (3) above.

Sanction has, therefore, been accorded to implement the Regulations ,Scheme and Syllabus of Master of Physical Education (MPE) course for affiliated colleges for 2013-2015 batch.

Orders are issued accordingly.

(The syllabus is attached herewith and is available in the website:[www.universityofcalicut.info](http://www.universityofcalicut.info))

# UNIVERSITY OF CALICUT

Regulation, scheme of examination and syllabus for the Master of Physical Education (M.P.E.) Course.

**UNIVERSITY OF CALICUT**  
**Regulation scheme of examination and syllabus for the**  
**Master of Physical Education (M.P.E) Course**

The main objective of the M.P.E course is to provide opportunity for professional training in Physical Education to students with Physical Education background and aptitude for higher studies M.P.E Degree is one of the qualification for appointment as Physical Education teachers and lectures in Schools, Colleges Universities etc. They can also work as instructors, trainers and coaches in fitness centers, health clubs, in companies and sports clubs.

**\* DURATION OF THE COURSE**

The duration of the course shall be two academic years with four semesters.

**\* ELIGIBILITY FOR ADMISSION**

A candidate for admission to the two year Master of Physical Education (M.P.E) degree course shall fulfill the following conditions.

\* Should have passed the Bachelor degree in Physical Education (B.P.E) of any University recognized by the University of Calicut OR have passed a post graduate degree or diploma (B.P.Ed/B.P.E/D.P.Ed) in Physical Education of at least one year duration of an Indian or Foreign University or Board appointed by the Education Department of the state of union Territory recognized by the Calicut University with a minimum of 50% marks in Graduate.

\* Should be below the age of 28 years as on 1<sup>st</sup> July of the concerned academic year SC/ST candidates will be given the eligible relaxation.

\* Should be physically fit for daily heavy load of physical activities and should not have physical deformity or mental disability

**\* SELECTION CRITERIA**

The candidate shall be selected for admission from the rank list prepared on the basis of the following criteria

* Written test (Based on B.P.E/B.P.Ed syllabus)	50 marks
* Game proficiency & Achievement	25 marks
* Physical fitness test (AAHPERD)	15 marks
* Sports achievement	10 marks
Total	100 marks

*	International participation	-	10 Marks
*	Nation/AIU – First Position	-	8 Marks
*	National /AIU – Second Position	-	6 Marks
*	National / AIU – Third position	-	5 Marks
*	National / AIU – Participation	-	4 Marks
*	Zonal / AIU First/ Second/ Third	-	3Marks
*	Zonal / AIU Participation	-	2.5 Marks
*	State / University First / Second / Third	-	2 Marks
*	State / University Participation	-	1.5 Marks
*	District – First / Second / Third	-	1 Marks
*	District / Inter College Participation	-	5 Marks

Total 100 Marks

\* The above said selection should be carried out by the supervision of an expert appointed by the university.

\* Candidates those who do not secure at least 40% marks in the selection test will not be included in the rank list. General reservation rules applicable for admission to post graduate degree course at the University departments shall be followed while admitting candidates from the ranked list.

\* **COURSE OF STUDY**

The course of stands for the M.P.E Course will have three parts

\* **Part – A. Theory**

\* **Part – B. Practical (General conditioning track and Field Yogasanas and Major games)**

\* **Part – C. Sports specialization**

\* Part – A Theory

**First Semester**

Paper I        Research Methodology and statistics in Physical Education

Paper II       Test, Measurement and Evaluation in Physical Education

Paper III      Sports Management

**Second Semester**

Paper IV      Physiology of Sports and exercise

Paper V        Science of coaching

Paper VI      Health and fitness Education

**Third Semester**

Paper VII     Sports Psychology

Paper VIII    Biomechanics

Paper IX      Sports Sociology

**Fourth Semester**

Paper X        Sports Medicine

Paper XI      Sports Specialization

Paper XII     Thesis

\*        Part – B Practical General condition, Track and field, Yogasanas and major Games)

(Activities can be selected depending up on the facilities available in the Department. Track and field. General conditioning and Yogasanas are compulsory)

\*    Track and Field (2) Badminton (3) Basketball (4) Cricket (5) Football (6) Gymnastics (7) Hockey (8) Handball (9) Judo (10) kabaddi (11) Kho-Kho (12) Softball (13) Swimming (14) Volleyball (15) Weightlifting (16) Wrestling (17) yoga.

\*        Part – C Sports specialization (one sports disciple from the following) Activities shall be allowed subject to the availability of facilities and experts.

\*        Track and Field

- \* Basketball
- \* Cricket
- \* Football
- \* Handball
- \* Volleyball
- \* Judo
- \* Kabaddi & Kho-Kho
- \* Badminton
- \* Tennis
  
- \* **ATTENDANCE**

Each semester should have a minimum of 100 working days and each working day will have three theory classes and four practical hours. Candidate must secure at least 90% of attendance in the lecturer delivered in each of the theory subjects in the Part – A and the practical of Part – B and C and complete the prescribed course of laboratory works, tutorials seminar, projects, assignment etc. to appear for the university examinations.

- \* **INTERNAL ASSESSMENTS**

Internal assessments for 25 marks in each of the theory papers in Part A shall be on the basis the internal examination on (average of three examinations), assignments, seminars (paper Presentation, illustration, evaluation conducted by the concerned teacher.

- \* **PROMOTION AND PASS**

Candidate who secure a minimum of 40% marks in the external examination and 50% Marks including the interest assessment in each of theory papers shall be declared to have Passed the Part A of the M.P.E. Examination. No separate minimum is required in internal Assessments in Part A. Candidate must secure at least 50% marks separately in internal and external Examination, for a pass in Part B and Part C of the M.P.E. examination. A candidate who fails in any paper in the Part A shall be eligible in appear of that paper along With the subsequent main examination. Failed candidates will be declared to have passed the Paper only if they secure 50% marks externally.

Candidates registered for the first semester M.P.E. examination shall have to complete the course within five years from the date of registration.

\* **SCHEME OF EXAMINATION****M.P.E First semester**

P A R T	Paper Number and subject		No.of Teach. Hours	Durat ion of Exam.	Inter nal marks.	Uyt. Exam Marks	Total Marks
	A	I	Research methodology and statistics in Physical Education	100	3hrs	25	75
II		Test, Measurement & Evaluation in Physical Education	100	3hrs	25	75	100
III		Sports Management	100	3hrs	25	75	100
Total		300		75	225	300	
P A R T  B		General conditioning ,  Track & field and match practice	200		100		100
		Major Game I	50	-	25	-	25
		Major Game II	50	*	25	-	25
		Major Game III	50	-	25	-	25
		Major Game IV	50	-	25	-	25
	Total		400		200		200
Total (part A and Part B)							500

**M.P.E II Semester**

P A R T A	Paper Number and Subject		No.of Teach. Hours	Duration of Exam	Interna l marks	Uty. Exam marks	Total marks
	IV	Physiology of sports & exercise	100	3hrs	25	75	100
	V	Science of coaching	100	3hrs	25	75	100
	VI	Health And Fitness Education	100	3hrs	25	75	100
	Total		300	-	75	225	300
P A R T B	General conditioning, Track &field and Match practice		200	-	100	-	100
	Major Game V		50	-	25		25
	Major Game VI		50	-	25	-	25
	Major Game VII		50	-	25	-	25
	Major Game VIII		50	-	25		25
Total		400	-	200	-	200	
Total (Part A &Part B)							500

**M.P.E.III Semester**

P A R T A	Paper Number and Subject		No.of Teach. Hours	Durat ion of Exam	Inter nal Mark	Uty. Exam Mark	Total marks
	VII	Sports Psychology	100	3hrs	25	75	100
	VII I	Kinesiology &Sports Biomechanics	100	3hrs	25	75	100
	IX	Introduction to Yoga &Yoga Therapy	100	3hrs	25	75	100
	Total		300	-	75	225	300
Part C	Sports specialization		400	-	100	-	100
Total							400

#### M.P.E. IV Semester

P A R T A	Paper Number and Subject		No.Of Teach. Hours	Durat ion of Exam	Inter nal Mark s	Uty. Exam Mark	Total Marks
	X	Sports Medicine and Health Education	100	3hur	25	75	100
	XI	Rules of Sports&Health Education	100	3hur	25	75	100
		Thesis*	100		25	75	100
Total		300		75	225	300	
Part C	Sports specialization** and Advance coaching ability (Practical)		400	1hrs	50	50	100
Total							400

\* There shall be a viva – voce examination for 25 marks. The external evaluation of thesis shall be for 75 marks (The average of two examiners shall be taken as the final mark.)

**Under Part C Sports Specialization** each student should maintain a record book and take at least 20 coaching classes internally and externally, to appear for the University examination.

\* **MEDIUM OF INSTRUCTION AND EXAMINATION**

The medium of instruction and examination shall be English.

\* **CLASSIFICATION OF SUCCESSFUL CANDIDATES**

The marks secured in all the semesters and all the parts shall be considered for classification.

75 % and above – Distinction

60 % and above – First class

50 % and above – Second class

## ANNEXURE

### **Part-A Theory**

#### **First Semester**

Paper 1	:	Research Methodology and Statistics in Physical Education
Paper 2	:	Test Measurements and Evaluation in Physical Education
Paper 3	:	Management in Physical Education & Sports

#### **Second Semester**

Paper 4	:	Physiology of Exercise
Paper 5	:	Scientific Principles of Sports Coaching
Paper 6	:	Health and Fitness Education

#### **Third Semester**

Paper 7	:	Psychology of Sports
Paper 8	:	Kinesiology and Sports Biomechanics
Paper 9	:	Introduction to Yoga and yoga Therapy : Theoretical Approach

#### **Fourth Semester**

Paper 10	:	Sports Medicine
Paper 11	:	Rules of Sports & Games

**COURSE OF STUDY FOR THE DEGREE OF MASTER OF PHYSICAL EDUCATION  
(M.P.E.)**

## First Semester

Paper 1	:	Research Methodology and Statistics in Physical Education
Paper 2	:	Test Measurements and Evaluation in Physical Education
Paper 3	:	Management in Physical Education & Sports

### PAPER – 1- RESEARCH METHODS & STATISTICS IN PHYSICAL EDUCATION

#### Unit-1 Introduction

- \* Meaning & Definition of Research
- \* Need and importance of research in Physical Education
- \* Scope of Research in Physical Education
- \* Types of research – analytical, descriptive, experimental, qualitative.
- \* Inter –disciplinary approach

#### Unit-2

- \* Research Problem: Formulation and Location of the research Problem.
- \* Criteria in selecting the research problem
- \* Defining and delimiting problem
- \* Preparation of a Research Proposal
- \* Formulation of Hypothesis
- \* Library search, Library sources
- \* Preparation of Research report, Writing styles, format and technical standards, Bibliography and Abstracts

#### Unit-3

- \* Descriptive Research : Survey, its importance
- \* Tools of Surveys such as questionnaire, interviews etc.
- \* Case studies, definition, importance, characteristics, data collection
- \* Historical Research Method ; Scope of Physical Education, Historical Data, Historical Criticism

#### Unit-4 Experimental Research

- \* Experimental Research Meaning, Scope & Nature
- \* Experimental & Control groups.
- \* Experimental designs.

##### A. One Group Design

1. Single Group
2. Reverse group
3. Repeated measure

##### B. More than one group Design

1. Static Group comparison
2. Random group
3. Related group

#### Unit-5

- \* Statistics, definition, Types of statistics and their uses in Physical Education
- \* Quantitative Data, Frequency distribution, Measure of Central Tendency, Measure of Variability and Percentiles
- \* Normal Curve, Definition, Properties and principles, uses and application

- \* Divergence from normality, Skewness and Kurtosis
- \* Scoring Scales Z, T, 6 Sigma and Hull Scale.

#### Unit-6

- \* Statistical inference, Meaning of Reliability, Factors affecting reliability
- \* Differences between Statistical and Null Hypothesis
- \* Standard Error, Type -1 and Type 2 errors, One tail and two tail tests
- \* Sampling – Simple, Stratified and Random samples, Coefficient of variation and sampling error
- \* Testing of Hypothesis, level of significance, Degrees of freedom, standard procedure of systematizing hypothesis

#### Unit-7

- \* T ratio, independent group and dependent group
- \* Analysis of Variance : with equal and unequal groups, post hoc tests
- \* Correlation: its uses and interpretation – Pearson's Product Moment correlation, Spearman Rank Difference Correlation

#### Unit-8

- \* Computer Application in Physical Education & Sports
- \* Word Processing Concept
- \* Introduction to MS Office, Drawing Graphs
- \* SPSS and its applications.

## **PAPER-2- TESTS MEASUREMENT & EVALUATION IN PHYSICAL EDUCATION**

### **Unit-1 Introduction**

- \* Meaning of the terms- test, measurement and evaluation.
- \* Brief History of test, measurement and evaluation
- \* Need and importance of measurement and evaluation in the field of physical education

### **Unit-2-Test Evaluation**

- \* Criteria for test selection : a. Scientific authenticity. B. Administrative feasibility C. Educational application
- \* Test Construction
- \* Constructing sports skill test
  - Steps in developing a sports skill test
  - Development of battery of skill test
  - Development of rating scales
  - Research steps in constructing a validating physical performance tests constructing sports knowledge test.
- \* Table of specification
- \* Test administration
- \* Types of test items
- \* Weighing test components- correcting of guessing- reliability and validity
- \* Administration of test
- \* Advance preparation- during testing-duties after testing

### **Unit-3- Measurement of fitness for health and skill**

- \* Definition of Health related physical fitness, and skill related physical fitness
- \* AAHPERD health related physical fitness test
- \* AAHPERD physical assessment programme
- \* Fit youth today
- \* AAHPERD Youth fitness test
- \* YMCA physical fitness test
- \* JCR Test
- \* Barrow Motor ability test
- \* Johnson test motor educability

### **Unit-4**

- \* **Posture tests**
- \* New York state posture rating test.
- \* Woodruff and alignment posture test.
- \* Cureton Posture measurement
- \* Footprint angle.
  
- \* **Cardio- vascular tests**
- \* The Harvard Step. Test and modification long and short form.
- \* Queens college step tests
- \* Coopers 12 minutes walk/run test

### **Unit-5- Test of specific sports skills**

Badminton : a.. The French short serve test . b. GSC Badminton clear test

Basketball : a. Leilich Basketball test b. Knox Basketball test

Hockey : a. Henry – Fridal Field Hockey test. B. Chapman ball control test

Soccer : a. Yeagly Soccer battery b. Mcdonald soccer skill test.

Tennis : a Sherman untimed consecutive rally test  
b. Hewitt service placement test

Volleyball: a. Helmen Volleyball test.  
b. Modified Brady volleyball test.

## **PAPER-3- MANAGEMENT IN PHYSICAL EDUCATION AND SPORTS**

### **Unit-1- Sports Management**

Definition and guiding principles of sports management an evaluation in sports management –  
Sports management setting – The foundation of sports management for sport managers –  
Managerial Skills – Managerial roles – management functions contingency views of

management – schemes of management of Physical Education at higher secondary school, college, Facility and state

### **Unit-2- Facility Management**

- \* Planning the facility – location and layout of play area and track, suggestions for planning and layout of playing areas, care and maintenance of playing areas.
- \* Purchase care and supplies of equipment determining supply and equipment needs, guidelines for selecting supplies and equipment, guidelines for the equipment room, guidelines for checking, storing, issuing and maintaining supplies and equipment.
- \* Gymnasium and Swimming pools: Construction and maintenance of gymnasium, types of swimming pools, construction of a multipurpose swimming pool, regulations to be served by participants in the swimming pool.

### **Unit- 3 Budget and Records**

- \* Finance and Budget : Model Physical Education budget for a year in a school and college, source of income and items of expenditure, Rules for the utilization of games fund in a school
- \* Records and Registers – Stock Register of games articles, Attendance Register, Physical efficiency test Register and skill test register

### **Unit- 4 Supervision**

Qualities and qualification of a supervision in Physical Education duties of a supervisor pertaining to administration, instructions, facilities, and professional growth, Techniques of supervision, visitation, conference, demonstration and bulletins.

### **Unit- 5 Sports Marketing**

Meaning, Historical background. Marketing management in sport, Factors in sports marketing product, strategic planning, price, promotion, place, package, positioning and perception. Promotional Licensing and sponsorship. Definition, growth of sponsorship, sponsorships place within the market mix, co-ordination and control of the market mix.

## **Second Semester**

Paper 4	:	Physiology of Exercise
Paper 5	:	Scientific principles of Sports Coaching
Paper 6	:	Health and Fitness Education

## **PAPER-IV- PHYSIOLOGY OF EXERCISE**

### **Unit – I- Muscular Physiology**

- \* Skeletal muscle structure and function : Cross structure electron microscopic structure, muscle fiber types, fiber distribution and performance, sliding filament theory of muscular contraction types of muscular contraction, energy for muscular contraction, acute and delayed muscular soreness, effect of exercise on muscular system.
- \* Respiratory system : Respiratory muscles, mechanism of respiration, pulmonary ventilation, dead space, lung volumes and capacities, effect of exercise on pulmonary ventilation, second wind, stitch in the side, Oxygen Debt.,

### **Unit -II - Cardio Respiratory Physiology**

- \* Circulatory System : Cardiac cycle, heart rate, stroke volume, systemic and pulmonary circulation, cardiac output during rest and exercise, measurement of cardiac output, factors influencing heart rate and blood pressure, circulatory adjustment during rest and exercise, effect of exercise on circulatory system.

- \* Nervous system: General nervous system and functions, organization of nervous system, structure of Neuron, electrical, activity in Neurons, voluntary control of muscular movements, involuntary control of muscular movements proprioceptors.

### **Unit – III – Bioenergetics**

- \* Energy sources ; Adenosine tri phosphate, aerobic and anaerobic metabolism (Carbohydrate, fat and protein metabolism) – Energy metabolism during rest, exercise and recovery.
- \* Exercise and environment : Exercise and temperature regulations in effects of high altitude on physical performance, physiological adaptations to altitude.

### **Unit – IV – Physiology of Performance**

- \* Factors effecting performance, fatigue, general and chronic symptoms and sites of fatigue, prevention, factors limiting anaerobic performance and aerobic performance.
- \* Work tests to evaluate performance, laboratory assessment of physical performance, components of effective physiological testing, direct and indirect methods.

## **REFERNCES**

- \* Robergs, Robert A and Roberts, Scott, O. Exercise Physiology, Mosby London, 1997

## **PAPER- V – SCIENTIFIC PRINCIPLES OF SPORTS COACHING**

### **Unit – I- Introduction**

- \* Definition, aims and characteristics of sports training
- \* Principles of Sports training specificity, overload, and reversibility.

- \* Massed and distributed practice.

### **Unit – II- Training load and adaptation**

- \* Loading – Definition, internal and external load
- \* Components of load – Intensity of loading density of loading, duration and extent of loading, load and adaptation.
- \* Progressive and fluctuation method of load
- \* Over load – Symptoms, causes and remedies

### **Unit – III – Motor Fitness Variable**

- \* Physical Fitness Components – Definitions, importance, classification and determining factors of Speed, Maximum Strength, Explosive Strength Endurance, Speed Endurance, Basic Endurance, Flexibility and Coordinative abilities
- \* Fitness and training

Basic types of training- resistance training, circuit training, interval training, fartlek training, pressure training, poly metrics , pressure training.

### **Unit –IV- Technical and Tactical Training**

- \* Definitions of techniques and tactics.
- \* Aims of technical training
- \* Classification if technique
- \* Training tactics
- \* Principles of tactical preparation

### **Unit – V- Planning**

- \* Principles of planning
- \* Types of training plans (Macro, Meso, Micro cycles)
- \* Periodization (Single, Double, Multiple and Triple)
- \* Training session – structure
- \* Competition, training and competition, principles of competition frequency, competition preparation

## **PAPER – VI- HEALTH & FITNESS EDUCATION**

### **Unit – I**

- \* Introduction to health : Modern concept of health, meaning and definition of health, difference, difference between HRPF.
- \* Assessing the components of fitness, goals and objectives
- \* Goal setting, Exercise prescription
- \* Basic principles for exercise programme design
- \* Principles of training, Means for developing fitness
- \* Fitness for different age groups, fitness for disabled
- \* ACSM Guidelines

### **Unit – II**

- \* Exercise prescription for cardio – respiratory fitness
- \* Type (Mode), Frequency and time (Duration), Intensity, Volume.
- \* Assessment of cardio – respiratory fitness, Graded exercise testing (GXT).
- \* Exercise prescription by heart rate, Exercise prescription by perceived exertion, Exercise prescription by workload

**Unit – III**

- \* Exercise prescription for weight loss and weight management, principles and programmes.
- \* Obesity, Overweight, Underweight – Definition and trends
- \* Obesity – types and causes.
- \* Weight management principles and practice, well balanced nutrition.
- \* Designing weight management programs , preliminary steps- Designing weight loss programs- Designing weight gain programs.
- \* Designing programs to improve body composition.

**Unit – IV**

- \* Strength and Muscular endurance assessment, One RM.
- \* Designing of strength development program
- \* Basic flexibility, assessment of flexibility
- \* Designing low – back care exercise program

**Unit – V**

- \* Exercise prescription for clients with diabetes mellitus type 1 & 2.
- \* Exercise prescription for clients with obstructive pulmonary disease, hypertension
- \* Exercise programs for pregnant women, children and geriatrics

**Unit – VI**

- \* Management of health and fitness centre- management theories applicable to health and fitness centre – modern trends and responsibilities of manager.
- \* Organizational structure of health and fitness facilities
- \* Principles and guidelines for facility planning, special infrastructure for health and fitness facilities.
- \* Health and fitness marketing management.
- \* Care and safety of health and fitness equipments.

### **Third Semester**

Paper 7	:	Psychology of Sports
Paper 8	:	Kinesiology and Sports Biomechanics
Paper 9	:	Introduction to Yoga and yoga Therapy : Theoretical Approach

## **PAPER – VII PSYCHOLOGY OF SPORTS**

### **Unit – I Introduction**

- \* Definition, meaning, nature and scope of psychology and sports psychology.
- \* The history of sports psychology in India

### **Unit – II Basic consideration in Motor Learning**

- \* The definition and measurement of attitude, attitude towards sports.
- \* Socio – Psychological factors.
- \* Definition and composition of personality, measuring personality
- \* Effect of sports on personality and its implications.
- \* Psycho tonic and autogenic training
- \* Self – hypnosis : Developing personalized training scripts.
- \* Audience effect in sports
- \* Group cohesion, developing team cohesion

### **Unit – III**

#### **A Perception**

- \* Definition of perception – description
- \* Theories of perception
- \* Perception and motor learning

## **B Cognitive process**

- \* Definition of intelligence, relationship of intelligence to motor ability and performance

## **Unit – IV- Motivation**

- \* Definition of motivation, extrinsic and intrinsic motivation, reinforcement, success and failure, and punishment, praise and criticism, knowledge of result, feedback and its implications.
- \* Emotional effects, tensions, anxiety and stress.
- \* Aggression and performance, definition of aggression, types of aggression in athletic competitions. Sex difference in aggression, and its implications.

## **Unit – V Mental Plans**

Developing the mental plan, self – assessment, pre-competition plan, event focus, pre-competition refocusing, refocusing within the competition, post competition evaluation, enhancing self- confidence.

Practical examples of application of psychology in sport doing imagery in the field, reversal theory, counseling athletes.

## **PAPER – VIII – KINESIOLOGY & SPORTS BOIMECHANICS**

### **Unit – I Introduction**

- a. Introduction : Meaning of Biomechanics.
- b. Biomechanics in Physical Education.
- C. Sports and Research.
- d. Movement analysis, mechanical analysis and biomechanical analysis.

### **Unit – II Structure and functions of human articulations**

Major body articulations (Shoulder, Elbow, Knee, Angle, Wrist and Hip Joint)

### **Unit – III Linear Kinematics**

- \* Distance and displacement.
- \* Speed and velocity
- \* Acceleration.
- \* Uniform motion
- \* Projectile motion and its application in sports.
- \* Application of principles of linear kinematics in sports.

### **Unit – IV Linear Kinetics**

- \* Force : Internal and external force, Eccentric force, Torque, Centripetal and Centrifugal force.
- \* Newton's Law of motion and its application in sports.
- \* Friction and its application in sports, Static friction, Kinetic friction.
- \* Momentum

- \* Impact and elasticity
- \* Work, Power and Energy, Definition, Types of energy, Conservation of Mechanical energy, principles of work and energy.
- \* Application of linear kinetics in sports.

### **Unit – V Angular Kinetics, Fluid Mechanics & Modern Gadgets**

- \* Center of gravity
  - \* Equilibrium – Types of equilibrium, Factors influencing equilibrium
  - \* Levers, its types and characteristics.
  - \* Application of principles of angular Kinetics in sports.
- e. Fluid properties : Density, specific weight, viscosity, Buoyancy, Floatation.  
f. Cinematography, Stroboscopy, Video analysis.

### **Unit – VI Biomechanical Analysis of fundamentals Human Movements**

Walking, Running, Jumping, Throwing, Lifting, Pulling, Pushing, Catching, Hitting and Climbing

### **Unit – VII Biomechanical Analysis of Sports & Games**

Athletics, Basketball, Cricket, Handball, Football , Hockey , Tennis, Badminton and Volleyball.

## **PAPER – IX : INTRODUCTION TO YOGA AND YOGA THERAPY : THEROTICAL APPROACH**

### **Unit – I Introduction to Yoga**

Origin of Yoga – Definition – Concepts – Aims and Objectives – Yoga is a Science and art

### **Unit – II**

Streams of Yoga – Karma Yoga – Bhakthi Yoga – Jnana Yoga – Raja Yoga – (Ashtanga Yoga) – Yamas, Niyamas, Asanas, Pranayama, Prathyahara, Dharana, Dhyana, Samthi, Hatha Yoga. Traditional prayers and its meaning Om Sahanavavathu – Yogena Chittasya – Hiranmayana – Prasyedam – Sarva Bahavathu.

### **Unit – III**

Physiological benefits of Asanas and Pranayam – Regulation of Breathing – Types of Breathing – Panchaprana.

### **Unit – IV**

Role of Yoga in disease – Yogi concept of human body – Role of Asanas, Pranayama and meditation in various diseases like diabetics, hypertension, coronary heart disease, Arthritis, Obesity , Back pain.

### **Unit – V**

Mind and functions : (Chitta and Vrittis) Power of mind – functions and powers of conscious mind – subconscious mind – Sanskara re- engineering, different stages of mind.

### **Fourth Semester**

Paper 10	:	Sports Medicine
Paper 11	:	Rules of Sports & Games
.....	:	Thesis

## **PAPER –X – SPORTS MEDICINE AND HEALTH EDUCATION**

### **Unit – I – Common Sports Injuries :**

Abrasion, Laceration, Blister Muscle injuries, Muscular Hematoma – Muscle Cramp, Stitch, Ligament Injuries, Skeletal Injuries , Periostitis, Dislocation, Tender injuries , its treatments and prevention, Prevention of sports injuries, Important factors in preventing sport injuries, RICE.

### **Unit – II – Regional Injuries of the Body :**

Head & Neck – Shoulder, Upper Arm, Elbow – Wrist and Forearm – Hip and Thigh – Knee and Lower leg – Ankle and Foot.

**Unit – III- Rehabilitation :**

Specific rehabilitation programme in the following joints - Ankle, Knee, Low back, Elbow, Wrist, Shoulder & Hip.

**Unit – IV- Stretching Exercise :**

Types of Stretching Exercise (Static, Dynamic & PNF Stretching)- Advantages & disadvantages of each type – benefits of stretching exercises – stretching exercises programme for the following joints – Head & Neck – Shoulder Joint – Shoulder Griddle – Elbow, Wrist, Hip, Knee, Ankle and Spine.

**Unit- V – First Aid for Sports Injuries :**

First Aid, Golden rules of First Aid, Responsibilities of first aids, Artificial respiration, Cardiac massage Shock, Head injuries , concussion, unconsciousness, Back injuries Sportsmen should seek medical advice when .

**Unit – VI – Sports Supplement & Ergogenic Aid :**

Creatine, Pyruvate, Carnitine, CXaffeine, Protein, Ergogenic aid, Definition and its classes – Doping : Definition, Doping Classes , Doping Method, Classes of Drugs.

**Unit – VII – Thermoregulation :**

Conduction, Convection, Radiation, Evaporation, Thermometer, Absolute Humidity Relative Humidity – Mechanism of Temperature regulation – exercise and thermoregulation. Heat acclimatization, Heart injuries, Cold acclimatization, Cold Injuries.

**Unit – VIII – Sports Physiotherapy**

Principles of Physiotherapy – Hydrotherapy : Modalities of Cryotherapy and Thermotherapy , Physiological effect of Hydrotherapy. Electrotheraphy : Ultra Sound – Short ware Diathermy – Microwave Diathermy – ( Galvanic & Ferodic), - Ultravioletate Nerve Stimulation (TENS), Interferential therapy – Laser therapy.

## **PAPER XI : Rules of Sports and Games**

The rules as per the respective National Federation of the following ten games/Sports are included namely 1) Track and Field, 2) Basketball, 3) Football, 4) Cricket, 5) Handball, 6) Volleyball, 7) Kho-Kho/Khabaddi, 8) Shuttle Badminton, 9) Table tennis 10) Hockey.

### **Unit – I**

- \* Introduction : History and Development of Track and field events
- \* Organizational setup of Track and Field Athletics
- \* Major competitions at National and International levels.

### **Unit – II**

- \* Rules and officiating in Track and field ; Principles of officiating
- \* Track and Field lay out and marking

### **Unit – III**

- \* The court – dimensions and marking
- \* Rules and officiating the Game – duties of officials

### **Unit – IV**

- \* Equipments and its measurement for sports and games.

## **REFERENCES**

## **Thesis**

\* There shall be a viva – voce examination for 25 marks. The external evaluation of thesis shall be for 75 marks (The average of two examiners shall be taken as the final mark.)

\* The thesis should be prepared under the guidance of a member of the teaching faculty of the department 3 copies of the thesis duly approved by the supervising teacher in the approved format together with 5 copies of the abstract should be submitted to the Department / College before the completion of the IV semester examinations.

### **Part B – Practical**

I Semester	II Semester
Track and Field	Kabaddi
Badminton	Kho-Kho
Basketball	Softball
Cricket	Swimming
Football	Volleyball
Gymnastics	Weightlifting
Hockey	Wrestling
Handball	Yoga
Judo	

Track and Field, general Conditioning and Yogasanas are compulsory. Select any 4 games in first and second Semester for practical. ( Part B)

Activities can be interchanged according to the convenience of the centre.

### **Part C – Specialization**

\* Sports specialization (one sports discipline from the following). Activities shall be allowed subject to the availability of facilities and experts.

#### **1. TRACK AND FIELD**

**Unit – I**

- \* Introduction : History and Development of Track and field events
- \* Organizational setup of Track and Field Athletics
- \* Major competitions at National and International levels.

**Unit – II**

- \* Rules and officiating in Track and field ; Principles of officiating
- \* Track and Field lay out and marking

**Unit – III**

- \* Fundamental technique of Track events ; Sprint events – Running form, starting and finishing technique.
- \* Middle and long distance running
- \* Walking events – Walking technique
- \* Hurdles Events – Hurdling technique

**Unit – IV**

- \* Fundamental techniques of jumping events, Long jump- Mechanics of Jumping Hang style and hitch – kick techniques – Approach run, Take off, action in the air, landing
- \* High jump – Straddle – role and Fosbury Techniques

**Unit – V**

- \* Fundamental Techniques of Throwing events – Mechanics of throwing
- \* The shot put, Initial Stance, Glide/turn, throwing position, release, recovery.
- \* The Discus throw , Technique – initial stance, preliminary swing, the turn throwing position, release, recovery.
- \* The Javelin throw, Technique – the grip, carry, five – stride rhythm, release, recovery.

- \* The hammer throw, technique – the grip, initial position, preliminary swing, the turn release, and reverse.

### **Unit – VI**

- \* Combined Events – Decathlon and Heptathlon – General principles of training for combined events.

### **Unit – VII**

- \* Pedagogic Principles of Track and field Training :
  - (i) Periodization of training – preparatory training – build up training – high performance training.
  - (ii) Training plans – Long term plan, yearly plan, monthly and weekly schedule, day's programme – physical qualities.

### **Unit – VIII Training Means and Methods**

- \* conditioning
- \* Warming up – general and specific.
- \* Development of Physical fitness and motor qualities.
- \* Specific training for techniques development tactics – effect of training in attitude.

### **Unit – IX**

- \* Talent Identification
- \* Training youth athletes and women athletes.
- \* Psychological preparation for competition in track and field.

## **PRACTICALS – FUNDAMENTAL SKILLS**

- \* starting technique – Standing start crouch start and its variations, props use of blocks.
- \* Finishing techniques – Run, through forward lunging shoulder shrug.
- \* Relays – various patterns of Baton exchange and understanding to relay zones.
- \* Hurdles – Approach , clearance over the Hurdle lead leg action, Trail leg action and recovery middle and long distance running.

- \* Steeple chase – Approach clearance recovery walking technique
- \* Long Jump (hang style and running in the air style) Approach run, take off, flight in the air and landing.
- \* High Jump (Straddle technique and Fosbury flop) – Approach run take off clearance over the bar and landing.
- \* Triple jump – Approach run, take off hop step and run phase (action in the air) and landing.
- \* Pole vault – Hand grip and pole carry. The run and pole plant, take off, bar clearance and landing
- \* Shot- put grip, stance glide, release and reverse (O'Brain style)
- \* Discus Throw – Grip, stance preliminary swing. Turns release and reverse
- \* Javelin Throw – Grip, carry approach run and reverse.
- \* Hammer Throw – Grip, preliminary swing turns, release and reverse.
- \* Combined events: Decathlon and Heptathlon.

## **2. BASKETBALL**

### **Unit – I**

- \* Historical development of game in India. Asia and world
- \* Organizational setup and structure of FIBA and BFI Competitions at National and International level and at various levels.
- \* Distinguished personalities , Arjuna awardees in Basketball

### **Unit – II**

- \* Rules and officiating the Game – duties of officials
- \* Coach, captain, game observation
- \* Individual and group scouting and statistical analysis of players and matches
- \* Objective and subjective tests.
- \* Warming up and stretching.
- \* Diet and mental attitude.

### **Unit – III**

- \* The court – dimensions and marking
- \* Equipments and its measurement
- \* Teaching Aids.

### **Unit – IV**

- \* Fundamental skills – Dribbling – Basic and reverse dribbling, dribbling, start and stop of a dribble, high, low and combinations of dribbles, Cross over dribbling, between the legs dribbling, behind the back dribbling
- \* Ball handling – grip, pivoting, stride stop, jump stop & fake and drive
- \* Passing – chest pass, over head pass, bounce pass – static and dynamic receiving.
- \* Shooting – the set shot , the jump shot, the lay – up shot and its variations, the hook shot and the Slam Dunk.
- \* The Rebound – Boxing out, tripping – in , Defensive Catching, Offensive catching.
- \* Defending – stance, defense against a dribbler, marking a passer, preventing pass reception.

### **Unit – V**

- \* Dribbling drills – dribbling reaction, dribbling cones, dribbling tag, traffic jam dribbling.
- \* Passing drills- wall passing, piggy in the middle, 2- player passing drill, Machine gun passing.
- \* Shooting Drills – One player drill, around the world, lay – up drill, three – man shooting drill
- \* Rebound drills – One – player drill, tipping in drill, one on one drill.
- \* Defensive drills – Zig – zag drills, Denial drill, two on two play.
- \* Fast break drills with three players and five players.

### **Unit – VI – Offensive Tactics**

- \* Individual passing fakes, shooting fakes, dribbling fakes, body and step fakes.
- \* Change of pace and direction different ways of cutting, crossover dribble.
- \* Combined tactics – give and go, criss – cross pick and roll , splitting the post, post plays out numbering situations, out of bound situations, jump ball situations, free throw situations, last movement situations.

### **Unit – VII– Individual Defense**

Guarding a man without the ball, with the ball, cutter pivot player, the shooter and over guarding defensive tactics strict to man, sliding switching, sandwiching, coupling fronting.

### **Unit – VIII– Offensive Game**

Fast break attack , freelance offense, passing game offense against man-man, offense against zone defense various systems of attack set plays and moves, defensive game man to man defense, floating man-man pressing man- man defense, man to man cum zone defense, different systems of zone defense, flexible man-man defense.

### **Unit – IX**

- \* Selection of teams and organization of short – term camps.
- \* Teaching and Coaching aids and gadgets.
- \* Lay out construction and maintenance of play ground, equipment management.
- \* Precautions and remedial measures of basketball injuries.

### **REFERENCES**

- \* Drewett, Jim. Basketball Internet Linked, London : Ticktock Publishing Ltd. 2001.

### 3. CRICKET

#### Unit – I

- \* History and development of Cricket – Bodyline and Ashes series. Historical development of Cricket in England, Australia, West Indies, South Africa, New Zealand, India, Pakistan , Sri Lanka, Zimbabwe and Bangladesh.
- \* History of Women’s Cricket.
- \* History of Indian Cricket.
- \* History of One – day Cricket
- \* History of World Cup Cricket.

#### Unit – II

- \* Cricket Controlling Bodies and its organizational Set up – ICC, MCC and TCCB.
- \* Organizational setup, aims and objectives of B.C.C.I.
- \* Standing Committees of B.C.C.I
- \* Major tournaments organized by B.C.C.I

#### Unit – III

- \* Layout and maintenance of the oval.
- \* Dimensions of the field.
- \* Pitch – Types of Pitches and preparation and maintenance of a Turf Wicket
- \* Essential equipments, measurements of equipments.
- \* Teaching Aids,
- \* Warming up, importance of warming up.

#### Unit – IV

- \* Fundamentals skills – batting – basics. Defensive stroke, attacking strokes, Modern improvised strokes. Funning between the wickets and Drills to improve the batting skills.

- \* Bowling – Basics. Out swinger. In swinger, reverse swing, off spin and its variations, leg spin and its variations and drills to improve the bowling skills.
- \* Fielding – Ground fielding. (stationary , on the run and slide stop) Catching. (High, Low, Flat and Reflex Catching).
- \* Wicket keeping – Drills to improve the wicket keeping skills.

### **Unit – V**

- \* The laws of cricket with interpretations.
- \* Officials in cricket
- \* Umpires and their duties.
- \* Duties before the match
- \* Duties during the interval
- \* Duties after the match.
- \* Signals, Unofficial and additional signals.

### **Unit – VI**

- \* Captaincy : Qualities of a good captain.
- \* Duties of captain
- \* Symptom of bad captaincy

### **Unit – VII**

- \* Criteria for selection of players at various levels.
- \* Warming up – conditioning and training process.
- \* Training methods.
- \* Planning a coaching camp : Annual , Weekly and daily plan.

### **Unit – VIII**

- \* Psychological qualities of cricket player.
- \* Method of developing psychological qualities. Psychological skills training

**Unit – IX**

- \* Injuries in cricket , prevention and first aid.
- \* Nutrition for cricket players.

**Unit – X**

- \* Modern Trends in Cricket
- \* Cricket Vocabulary , Award winner and Records.

**REFERENCES**

- \* A handbook of practical training in Cricket , Mumbai : Jaico Publishing House.1998

**4. VOLLEYBALL****Unit – I**

- \* History of Volleyball , the development of the game in the world, volleyball in Asia, Volleyball in India.
- \* Organizational set up FIVB, AVC and VFI
- \* Recipients of Arjuna award and Dronacharya award.

## **Unit – II**

- \* Warming up, importance of warming up , principles of warming up, methods of warming up : General, specific and competition warming up, warm down.
- \* Court making : construction and maintenance of volleyball court. Essential and additional equipments in volleyball.
- \* Rules of Volleyball and their interpretation.
- \* Duties of officials, Beach volleyball.

## **Unit – III**

Teaching and training of the techniques : With analysis. Volleyball pass (over head pass). Under hand pass (Dig pass). Underhand service. Tennis service. Upper hand back pass, Floating service. Pass in jump. Straight smash, Smash with body turn. Wrist outward smash. Wrist inward smash, Hesitation and smash. Zig- zag smash. Back –court attack. Rising ball attack. Jump service. One man pass with back rolling. Volley pass with back rolling, Forward dive and pass. Single block , Group block. Set up training and setter and attack on direct pass from back from back court.

## **Unit – IV**

- \* Organization of competitions : Types of competitions and organization of competitions.
- \* Systems of conducting the competition and world. Asia, Commonwealth, Regional and national levels.
- \* Methods of drawing , fixtures, to divide positions at the end of the competitions.
- \* Philosophy of officiating – mechanics of officiating, steps to improve officiating.
- \* Pre- requisite characteristics of volleyball player.

## **Unit – V**

- \* Tactics : Tactical training , individual tactics in service reception, set up, attack block and defense.
- \* Group tactics : 1) Service reception : 6 men reception , 5 men reception, 4 men reception, 3 men reception, 2 men reception.
- \* Attacking combinations : attack by 2,3 front row players and back row players and methods of teaching attacking combinations.
- \* Defense : Methods of teaching the defense system. Free ball defense (defense with no block) 2-1-3 forward angle defense. 2-1-3 backward angle defense. 2-0-4 defense system. 1-2-3 defense system, 2-2-2 defense system, 1-1-4 defense system, 3-0-3 defense system. 3-1-2 defense system covering of the attack and methods of teaching.

## **Unit – VI**

- \* Test and Measurements : Specific test for volleyball (endurance, speed, flexibility, explosive strength of arms and legs, jumping ability and speed endurance.)
- \* Test for skills : Service – dig pass, volley pass. Set up test, attack test, defense test.
- \* Selection of players and team composition : Talent selection, selection of a team, selection of team captain, selection of starting six for immediate participation in competitions, team composition, scouting preparation of scout report, procedures, areas scouted using of scout report in individual player coaching and team coaching.

## **Unit – VII**

- \* Psychological characteristics of a volleyball player : Psychological qualities required to specific position, methods of developing psychological qualities.
- \* Grading the team before, during and after the match, tactics of substitution and time out, rhythm of the game, switching of players, direct preparation of a team for a decisive competition.

## **Unit – VIII**

- \* Complex training, functional training, pressure training, concentration training, will training, situational training, small court games.

## REFERENCES

## 5. FOOTBALL

### Unit – I

- \* Introduction of the game : History and development of the game with special reference to India.
- \* Organization set up of the game in the world and in India.
- \* Important competitions held at National and International level.
- \* Distinguished players of the game both international & national.

### Unit – II

- \* General and specialized techniques : Drills and head-up activities.

### Unit – III

- \* System of play : Definition, development of system of play form, Heroic Age of Soccer to present day of total football.
